2000 AUXMIS II National Data

“The last couple of years have produced a sea change in the Auxiliary’s relationship to the regular Coast Guard. ...We have seen a transformation in which the Auxiliary has been recognized as an absolutely essential force multiplier, which we now rely on as an integrated part of the Coast Guard effort to do good things for America.” ...

Public Education Courses

Offer a wide variety of boating courses tailored to specific needs including boat handling, legal responsibilities, aids to navigation, rules of the road, piloting.

Operations

Assists CG in search and rescue/assistance missions, environmental protection, marine safety, patrol regattas and marine events. Performs safety patrols often in conjunction with regular CG units and provides verification of private aids to navigation.

Vessel Safety Checks

Specially trained members authorized to conduct free vessel safety checks upon consent of owners/operators for safety equipment and requirements of federal and state law.

The Academy Introduction Mission (Project AIM)

Open to all students just completing their junior year of high school. Annually offers 220 high-school juniors nationwide, the opportunity to visit the Coast Guard Academy for one week each summer to gain insight into cadet-life. Applications are available from local Auxiliary flotillas or by contacting the Academy’s director of admissions. You may also contact our Internet sites below:
